

# Glenmorgan State School

## Student Code of Conduct

# 2020-2023

*Every student succeeding*

*Every student succeeding is the shared vision of Queensland state schools. Our vision shapes regional and school planning to ensure every student receives the support needed to belong to the school community, engage purposefully in learning and experience academic success.*

*Queensland Department of Education  
State Schools Strategy 2020-2024*

## Purpose

Glenmorgan State School is committed to providing a safe, respectful and disciplined learning environment for students and staff, where students have opportunities to engage in quality learning experiences and acquire values supportive of their lifelong wellbeing.

This ***Student Code of Conduct*** is designed to facilitate high standards of behaviour so that the learning and teaching in our school can be effective and students can participate positively within our school community.

Our school motto is **Learning Today For Tomorrow.**

Our ***Student Code of Conduct*** seeks to honour this motto by enabling all students to develop self-respect and integrity, treating others with respect thereby becoming global citizens who contribute positively to their world today and into the future.

Conclusion

## Principal's Foreword

Glenmorgan State School continues to be highly regarded as a supportive and learner focused school community. Our school community is built on proudly earned high expectations of achievement and behaviour which are supported through traditional family values.

Through educational excellence, we are committed to nurturing critical thinkers of the future, developed in an educational environment where high expectations of student behaviour are seen as the foundation to all learning.

Glenmorgan State School is an inclusive school that caters for all students and promotes success through the following Positive Behaviour for Learning expectations:

These expectations have been used in the development of this ***Student Code of Conduct*** with the commitment to building the skills of all of our students to be confident, self reflective and valued community members who can contribute positively to society.

This document provides a collaborative and clear explanation of what we expect from our students and how we will support every student to meet those expectations.

## Learning and Behaviour Statement

All areas of Glenmorgan State School are learning and teaching environments. We consider behaviour management to be an opportunity for valuable social learning as well as a means of maximising the success of our academic education programs.

Our ***Student Code of Conduct*** outlines our system for facilitating positive behaviours, preventing problem behaviour and responding to unacceptable behaviours. Through our school plan shared expectations for student behaviour are plain to everyone, assisting Glenmorgan State School to create and maintain a positive and productive learning and teaching environment, where ALL school community members have clear and consistent expectations and understandings of their role in the educational process.

At all times, Glenmorgan State School seeks to reflect the values and behaviour that are acceptable in our society. It has a clear expectation that, as far as possible, it remains connected to the community that exists outside the school fence and that our students will embrace appropriate values as their preferred way of behaving. These beliefs influence our students' decisions, behaviour and social practices.

It is reasonable to expect that not everyone will share the same sets of beliefs, and this contributes to a richly diverse social environment in each school. It can also contribute to differences in expectations and which then enables us to reflect on our own understanding of what we consider acceptable and unacceptable. We encourage any student or parent to make an appointment with the principal to discuss the model of behaviour support and discipline used at this school.

## Multi-Tiered Systems of Support

Glenmorgan State School uses multi-tiered systems of support as the foundation for our integrated approach to learning and behaviour. Tiered levels support a preventative and differentiated model grounded in practical strategies, targeted planning and informed decision-making. Based on a problem-solving model, our school staff match increasingly intensive interventions to the identified needs of individual students.

<u>Tier</u>	<b>Prevention Description</b>
<b>1</b>	<p><b>All students</b> (100%) in the school receive support for their academic and behavioural development. Focus is on the whole-school implementation of both the Australian Curriculum and Positive Behaviour for Learning (PBL) expectations.</p> <p><u>This involves:</u></p> <ul style="list-style-type: none"> <li>• <i>teaching behaviours in the setting they will be used</i></li> <li>• <i>being consistent when addressing challenging behaviour, while taking developmental norms and behavioural function into account</i></li> <li>• <i>providing refresher lessons and targeted recognition throughout the school year so skills are ready and likely to be used when students need them</i></li> <li>• <i>asking students and their families for their perspectives on school climate, instruction, reinforcement, and discipline so improvements in Tier 1 may be made.</i></li> </ul>
<b>2</b>	<p>Targeted instruction and supports for <b>some students</b> are more intense than Tier 1 services, providing more time and specialisation in services from a range of school-based staff to enable students to meet the required academic and behavioural standards.</p> <p>Tier 2 supports build on the lessons provided at Tier 1, and may prevent the need for more intensive interventions. Tier 2 supports are provided to small groups of students with similar needs, offering more time and/or detailed instruction on the Australian Curriculum or particular aspects of Positive Behaviour for Learning (PBL) expectations. The types of interventions offered at this level will vary according to the needs of each school's student body, but all have certain things in common:</p> <ul style="list-style-type: none"> <li>• <i>there is a clear connection between the skills taught in the interventions and the school-wide expectations.</i></li> <li>• <i>interventions require little time of classroom teachers and are easy to sustain</i></li> <li>• <i>variations within each intervention are limited</i></li> <li>• <i>interventions have a good chance of working (e.g., they are "evidence-based" interventions that are matched to the student's need).</i></li> </ul>

	<p>If the school data indicates that more than 10-15% of students require targeted services, then a review of Tier 1 is needed to address the basic implementation and quality of instruction.</p>
3	<p>Individualised services for <b>few students</b> (usually less than 5%) who require the most intensive support a school can provide. These are usually delivered in very small groups or on an individual basis.</p> <p>Tier 3 supports continue to build on the lessons and supports provided at Tiers 1 and 2, becoming more individualised and more intensive until teams can identify what is needed for a student to be successful. Tier 3 supports are based on the underlying reasons for a student's behaviour (their FBA) and should include strategies to:</p> <ul style="list-style-type: none"> <li>• <b>PREVENT</b> problem behaviour</li> <li>• <b>TEACH</b> the student an acceptable replacement behaviour</li> <li>• <b>REINFORCE</b> the student's use of the replacement behaviour</li> <li>• <b>MINIMISE</b> the consequences for problem behaviour.</li> </ul> <p>Tier 3 supports exist along a continuum. Many students can benefit from a simple (or brief) Functional Behaviour Assessment (FBA) that identifies unique strategies to help the student achieve success. A smaller percentage of students may require a more comprehensive FBA that includes a more thorough process for data collection, teaming, and problem solving. A much smaller percentage of students may need an intensive FBA and wraparound plan that includes personnel from outside agencies and rigorous problem solving procedures.</p> <p>If the school data indicates that more than 2-5% of the student population requires individualised services, a review of Tier 1 and Tier 2 supports and organisation are recommended.</p>

## Student Wellbeing and Support Network

Glenmorgan State School offers a range of programs and services to support the wellbeing of students in our school. We encourage parents and students to speak with their class teacher or the principal if they would like individual advice about accessing particular services.

Learning and wellbeing are inextricably linked — students learn best when their wellbeing is optimised, and they develop a strong sense of wellbeing when they experience success in learning. The [student learning and wellbeing framework](#) supports state schools with creating positive school cultures and embedding student wellbeing in all aspects of school life through connecting the learning environment, curriculum and pedagogy, policies, procedures and partnerships for learning and life.

### **Curriculum and pedagogy**

Schools build the foundations for wellbeing and lifelong learning through curriculum embedding [personal and social capabilities](#) (self-awareness, self-management, social awareness and social management) in the implementation of the [P–12 curriculum, assessment and reporting framework](#).

Schools acknowledge the positive impact that a meaningful relationship between teacher and students can have on students' academic and social outcomes.

### **Policy and expectations**

Within a school community there are specific health and wellbeing issues that will need to be addressed for the whole school, specific students, or in certain circumstances.

### **Drug education and intervention**

Glenmorgan State School implements drug intervention measures for students involved in drug-related incidents at school, during school activities or while in school uniform. This is managed to protect the health and safety of the student/s involved, other students, school staff and the wider community.

### **Specialised health needs**

Glenmorgan State School works closely with parents to ensure students with specialised health needs, including those requiring specialised health procedures, have access to a reasonable standard of support for their health needs whilst attending school or school-based activities.

This means that appropriate health plans are developed and followed for students with specialised health needs, that staff are aware of the student's medical condition and that staff have been trained to support the student's health condition.

### **Medications**

Glenmorgan State School requires parent consent and medical authorisation to administer any medication (including over-the-counter medications) to students. For students requiring

medication to be administered during school hours, the school can provide further information and relevant forms.

For students with a long-term health condition requiring medication, parents need to provide the school with a [Request to administer medication at school](#) form signed by the prescribing health practitioner.

Glenmorgan State School maintains a minimum of one adrenaline auto-injector and asthma reliever/puffer, stored in the school's first aid kit to provide emergency first aid medication if required.

The administration of medications to students by school staff is only considered when a prescribing health practitioner has determined that it is necessary or when there is no other alternative in relation to the treatment of a specific health need. Schools require medical authorisation to administer any medication to students (**including over-the-counter medications such as paracetamol or alternative medicines**).

### **Mental health**

Glenmorgan State School implements early intervention measures for students where there is reasonable belief that a student has a mental health difficulty. This includes facilitating the development, implementation and periodic review of a [Student Plan](#).

## Consideration of Individual Circumstances

Staff at Glenmorgan State School take into account students' individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. This also means that not everyone will be treated the same, because treating everyone the same is not fair. For example, some students need additional support to interpret or understand an expectation. Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what punishment another student might have received, we will not disclose or discuss this information with anyone but the student's family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

If you have concerns about the behaviour of another student at the school, or the way our staff have responded to their behaviour, please make an appointment with the principal to discuss the matter.

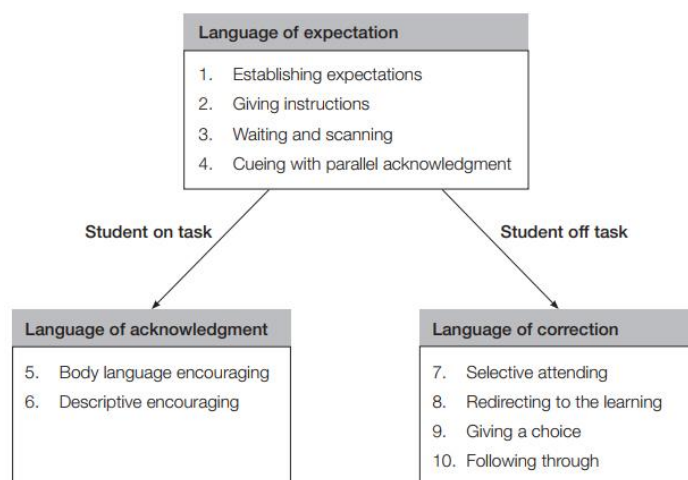

# Whole School Approach to Discipline

Glenmorgan State School uses *Positive Behaviour for Learning* as the system of support for discipline in the school. This is a whole-school approach, used in all classrooms and programs offered through the school, including sporting activities and excursions.

## PBL is an evidence-based framework used to:

- analyse and improve student behaviour and learning outcomes
- ensure that only evidence-based practices are used correctly by teachers to support students
- continually support staff members to maintain consistent school and classroom improvement practices.

At Glenmorgan State School we believe discipline is about more than punishment and behavioural incidents are seen as opportunities to re-teach our behavioural expectations. Our belief is that student behaviour is a part of the overall teaching and learning approach in our school. Our staff take responsibility for making their expectations clear and for providing supportive instruction about how to meet these expectations. This is based on the following 10 Essential Skills for Behaviour Management.

The development of the **Glenmorgan State School Student Code of Conduct** is an opportunity to discuss the PBL framework with parents and students, and gain their support to implement a consistent approach to teaching behaviour. The language and expectations of PBL can be used in any environment, including the home setting for students. Doing everything we can do to set students up for success is a shared goal of every parent and school staff member.

Any students or parents who have questions or would like to discuss the **Student Code of Conduct** or PBL are encouraged to speak with the class teacher or make an appointment to meet with the principal.

## Clear Expectations

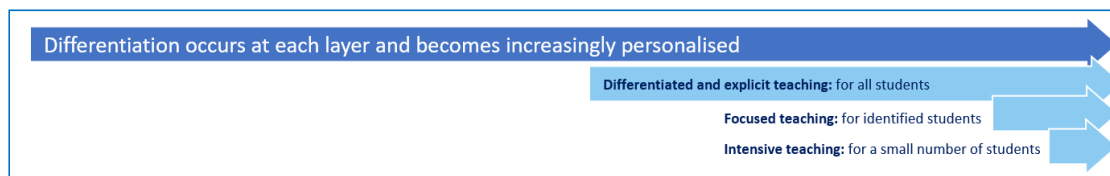

Every teacher in our school teaches the PBL expectations of Be Safe, Be Respectful and Be Responsible where students learn about the behavioural expectations related to each of these expectations. When students are consistently able to demonstrate these behaviours, they are able to focus on achieving improved outcomes in all aspects of their learning, both at school and within the home environment.

## Differentiated and Explicit Teaching

Glenmorgan State School is a disciplined school environment that provides differentiated teaching which is responsive to the learning needs of all students. This involves teaching expected behaviours and providing opportunities for students to practise these behaviours. Teachers reinforce expected behaviours, provide feedback and correction, and opportunities for practice.

Teachers at Glenmorgan State School vary what students are taught, how they are taught and how students can demonstrate what they know as part of this differentiated approach to behaviour. These decisions about differentiation are made in response to data and day-to-day monitoring that indicates the behavioural learning needs of students. This enables our teachers to purposefully plan a variety of ways to engage students; assist them to achieve the expected learning; and to demonstrate their learning.

There are three main layers to differentiation, as illustrated in the diagram below. This model is the same used for academic and pedagogical differentiation.

These three layers map directly to the tiered approach discussed earlier in the Learning and Behaviour section. For example, in the PBL framework, Tier 1 is differentiated and explicit teaching for all students, Tier 2 is focussed teaching for identified students and Tier 3 is intensive teaching for a small number of students. Each layer provides progressively more personalised supports for students.

## Focused Teaching

A small percentage of students in any school or classroom may require additional support to meet behaviour expectations, even after being provided with differentiated and explicit teaching. These students may have difficulty meeting behavioural expectations in a particular period of the day or as part of a learning area/subject, and focused teaching is provided to help them achieve success.

Focused teaching involves revisiting key behavioural concepts and/or skills and using explicit and structured teaching strategies in particular aspects of a behaviour skill. Focused teaching

provides students with more opportunities to practise skills and multiple opportunities to achieve the intended learning and expected behaviour.

At times teachers with specialist expertise in learning, language or development, work collaboratively with class teachers extra learning and/or behaviour support for students who require extra support. Our classroom teachers consistently work towards identifying students who may:

- no longer require the additional support aligned
- require ongoing focussed teaching
- require intensive teaching.

Glenmorgan State School school invests in the following evidence-informed programs to address specific skill development:

- Zones of Regulation
- Pause Program
- Bounce Back Program
- Positive Behaviour for Learning (PBL)

## Intensive Teaching

Research evidence shows that even in an effective, well-functioning school there will always be approximately 5% of the student population who require intensive teaching to achieve behavioural expectations. Intensive teaching involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

Some students may require intensive teaching for a short period, for particular behaviour skills. Other students may require intensive teaching for a more prolonged period. Decisions about the approach will be made based on data collected from their teacher or teachers, and following consultation with the student's family.

For a small number of students who continue to display behaviours that are deemed complex and challenging, then individualised, function-based behaviour assessment and support plans and multi-agency collaboration may be provided to support the student. This approach will seek to address the acute impact of barriers to learning and participation faced by students who are negotiating a number of complex personal issues.

Students who require intensive teaching will be assigned an individual mentor at the school that will oversee the coordination of their program, communicate with stakeholders and directly consult with the student.

## Acknowledgement of Positive Behaviours

At Glenmorgan State School, teaching staff and student support staff use a range of methods to consistently acknowledge and recognise positive behaviours. These methods of acknowledging student behaviours which are safe, responsible and respectful include (but are not limited to) those listed below.

- certificates presented on parade
- certificates/rewards presented in class
- behaviour chart/book records (individual and class)
- class specific award systems (eg. points, stickers, money books)
- end of semester celebration of success activities (eg. pool party)
- attendance incentives
- One School records (positive behaviours)
- individualised behaviour support programs/reward systems
- verbal acknowledgement of positive behaviours
- parent contact (email/telephone) to acknowledge positive behaviours

## Legislative Delegations

### Legislation

In this section of the Glenmorgan State School Student Code of Conduct are links to legislation which influences form and content of Queensland state school discipline procedures.

- [Anti-Discrimination Act 1991 \(Qld\)](#)
- [Child Protection Act 1999 \(Qld\)](#)
- [Commonwealth Disability Discrimination Act 1992](#)
- [Commonwealth Disability Standards for Education 2005](#)
- [Criminal Code Act 1899 \(Qld\)](#)
- [Education \(General Provisions\) Act 2006](#)
- [Education \(General Provisions\) Regulation 2017](#)
- [Human Rights Act 2019 \(Qld\)](#)
- [Information Privacy Act 2009 \(Qld\)](#)
- [Judicial Review Act 1991 \(Qld\)](#)
- [Right to Information Act 2009 \(Qld\)](#)
- [Police Powers and Responsibilities Act 2000 \(Qld\)](#)
- [Workplace Health and Safety Act 2011 \(Qld\)](#)
- [Workplace Health and Safety Regulation 2011 \(Cwth\)](#)

### Delegations

Under the Education (General Provisions) Act 2006, state school principals are responsible for “controlling and regulating student discipline in the school”.

Principals are afforded a number of **non-delegable powers** to assist them to meet this obligation, including the authority to suspend, exclude or cancel the enrolment of a student at the school. These decision-making responsibilities cannot be delegated to other staff in the school, such as deputy principals.

The details of these responsibilities are outlined in the legislative instruments of delegation and instruments of authorisation provided below:

- [Education \(General Provisions\) Act 2006 Director-General’s delegations](#)
- [Education \(General Provisions\) Act 2006 Minister’s delegations](#)
- [Education \(General Provisions\) Act 2006 Director-General’s authorisations](#)
- [Education \(General Provisions\) Regulation 2006 Minister’s delegations](#)
- [Education \(General Provisions\) Regulation 2017 Director-General’s delegations](#)

## Disciplinary Consequences

The disciplinary consequences model used at Glenmorgan State School follows the same differentiated approach used in the proactive teaching and support of student behavioural expectations. Behaviours that require immediate intervention from administration staff are considered to be major behaviours. All other behaviours, when not consistently recurring, are considered to be minor behaviours.

The majority of students will be confident and capable of meeting established classroom expectations that are clear, explicitly taught and practised. Minor behaviours are managed in the classroom using the behaviour flowchart.

Some students will need additional support, time and opportunities to practise expected behaviours. A small percentage of the student population may experience difficulty with meeting the stated expectations, and even with focussed teaching, in-class corrective feedback, sanctions and rule reminders continue to display low-level problem behaviour. A continued pattern of low-level behaviour can interfere with teaching and learning for the whole class, and a decision may be needed by the class teacher to refer the student to the school administration team immediately for determination of a disciplinary consequence.

For a small number of students, approximately 2-5%, a high level of differentiated support or intensive teaching is required to enable them to meet the behavioural expectations. This may be needed throughout the school year on a continuous basis. The determination of the need will be made by the principal in consultation with staff and other relevant stakeholders. On occasion the behaviour of a student may be so serious, such as causing harm to other students or to staff, that the principal may determine that an out of school suspension or exclusion is necessary as a consequence for the student's behaviour. Usually this course of action is only taken when the behaviour is either so serious as to warrant immediate removal of the student for the safety of others, and no other alternative discipline strategy is considered sufficient to deal with the problem behaviour.

The differentiated responses to problem behaviour can be organised into three tiers, with increasing intensity of support and consequences to address behaviour that endangers others or causes major, ongoing interference with class or school operations.

## Differentiated Disciplinary Responses

Class teacher provides in-class or in-school disciplinary responses to low-level or minor problem behaviour. This may include:

- Pre-correction (e.g. “Remember, walk quietly to your seat”)
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Ratio of 5 positive to 1 negative commentary or feedback to class
- Corrective feedback (e.g. “Hand up when you want to ask a question”)
- Rule reminders (e.g. “When the bell goes, stay seated until I dismiss you”)
- Explicit behavioural instructions (e.g. “Pick up your pencil ready for learning”)
- Proximity control
- Tactical ignoring of inappropriate behaviour (not student)
- Revised seating plan and relocation of student/s
- Individual positive reinforcement for appropriate behaviour
- Classwide incentives
- Reminders of incentives or class goals
- Redirection
- Low voice and tone for individual instructions
- Give 30 second ‘take-up’ time for student/s to process instruction/s
- Reduce verbal language
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. “Which one do you want to start with?”)
- Prompt student to take a break or time away in class
- Model appropriate language, problem solving and verbalise thinking process (e.g. “I’m not sure what is the next step, who can help me?”)
- Provide demonstration of expected behaviour
- Peer consequence (e.g. corrective feedback to influential peer demonstrating same problem behaviour)
- Private discussion with student about expected behaviour
- Reprimand for inappropriate behaviour
- Warning of more serious consequences (e.g. removal from classroom)
- Time-out within classroom
- Time-out (Principal’s office)
- Loss of play time
- Parent contact/meeting to discuss behaviours of concern
- OneSchool Record (behaviour tab)

## Focused Disciplinary Responses

Class teacher is supported by other school-based or non-school based staff to address problem behaviours. This may include:

- Functional Behaviour Assessment
- Individual student behaviour support strategies (e.g. Individual Student Behaviour Plan)
- Targeted skills teaching in small group
- Behavioural contract
- Supported play plan
- Counselling and guidance support
- Self-monitoring plan
- Check in/ Check Out strategy (at the beginning and the end of the school day)
- Teacher coaching and debriefing
- Referral to Student Support Network for team based problem solving
- OneSchool record (behaviour tab)
- Stakeholder meetings with parents and external agencies

## Intensive Disciplinary Responses

School staff work can work in consultation with the Student Support Services Network to address persistent or ongoing serious problem behaviour. This may include:

- OneSchool records (Individual Support Plan)
- Functional Behaviour Assessment based individual support plan
- Complex case management and review
- Stakeholder meeting with parents and external agencies including regional specialists
- Temporary removal of student property (e.g. mobile phone)
- Short term suspension (up to 10 school days)
- Long term suspension (up to 20 school days)
- Charge related suspension (student has been charged with a serious criminal offence is suspended from school until the charge has been dealt with by the relevant justice authorities)
- Suspension pending exclusion (student is suspended from school pending a decision by the Director-General or delegate (principal) about their exclusion from school)
- Exclusion (student is excluded from a particular state school site, a group of state schools or all state schools in Queensland for a defined period of time or permanently)
- Cancellation of enrolment for students older than compulsory school age who refuse to participate in the educational program provided at the school.

## School Disciplinary Absences

A School Disciplinary Absence (SDA) is an enforced period of absence from attending a Queensland state school, applied by the Principal as a consequence to address certain categories of student behaviour. There are four types of SDA:

- Short suspension (1 to 10 school days)
- Long suspension (11 to 20 school days)
- Charge-related suspension
- Exclusion (period of not more than one year or permanently).

At Glenmorgan State School, the use of any SDA is considered a very serious decision. It is typically only used by the Principal when other options have been exhausted or the student's behaviour is so dangerous that continued attendance at the school is considered a risk to the safety or wellbeing of the school community.

Parents and students may appeal a long suspension, charge-related suspension or exclusion decision. A review will be conducted by the Director-General or their delegate, and a decision made within 40 school days to confirm, amend/vary or set aside the original SDA decision by the Principal.

The appeal process is a thorough review of all documentation associated with the SDA decision and provides an opportunity for both the school and the family to present their case in the matter. Time is afforded for collection, dissemination and response to the materials by both the school and the family. It is important that the purpose of the appeal is understood so that expectations are clear, and appropriate supports are in place to ensure students can continue to access their education while completing their SDA.

### Re-entry following suspension

Students who are suspended from Glenmorgan State School may be invited to attend a re-entry meeting on the day of their scheduled return to school. The main purpose of this meeting is to welcome the student, with their parent/s, back to the school. It is **not a time** to review the student's behaviour or the decision to suspend, the student has already received a punishment through their disciplinary absence from school. The aim of the re-entry meeting is for school staff to set the student up for future success and strengthen home-school communication.

### Arrangements

The invitation to attend the re-entry meeting will be communicated via telephone and in writing, usually via email. Re-entry meetings are short, taking less than 10 minutes, and are kept small with only the Principal or their delegate attending with the student and their parent/s.

A record of the meeting is saved in OneSchool, under the Contact tab, including any notes or discussions occurring during the meeting.

## **Structure**

The structure of the meeting should follow a set agenda, shared in advance with the student and their family. If additional items are raised for discussion, a separate arrangement should be made to meet with the parent/s at a later date and time. This meeting should be narrowly focussed on making the student and their family feel welcome back into the school community.

## **Possible agenda:**

- Welcome back to school
- Check in on student wellbeing
- Discuss any recent changes to school routine or staffing
- Offer information about supports available (e.g. guidance officer)
- Set a date for follow-up
- Thank student and parent/s for attending
- Walk with student to classroom

## **Reasonable adjustments**

In planning the re-entry meeting, school staff will consider reasonable adjustments needed to support the attendance and engagement of the student. This includes selecting an appropriate and accessible meeting space, organising translation or interpretation services or supports (e.g. AUSLAN), provision of written and/or pictorial information and other relevant accommodations. The inclusion of support staff, such as guidance officers or Community Education Counsellors, may also offer important advice to ensure a successful outcome to the re-entry meeting.

## School Policies

Glenmorgan State School has tailored school discipline policies designed to ensure students, staff and visitors work cooperatively to create and maintain a supportive and safe learning environment. Please ensure that you familiarise yourself with the responsibilities for students, staff and visitors outlined in the following policies:

- Temporary removal of student property
- Use of mobile phones and other devices by students
- Preventing and responding to bullying
- Appropriate use of social media

### Temporary Removal of Student Property

The removal of any property in a student's possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff and students. The **Temporary removal of student property by school staff procedure** outlines the processes, conditions and responsibilities for state school principals and school staff when temporarily removing student property.

In determining what constitutes a reasonable time to retain student property, the principal or state school staff will consider:

- the condition, nature or value of the property
- the circumstances in which the property was removed
- the safety of the student from whom the property was removed, other students or staff members
- good management, administration and control of the school.

The Principal or state school staff determine when the temporarily removed student property can be returned, unless the property has been handed to the Queensland Police Service.

**The following items are explicitly prohibited at Glenmorgan State School and will be removed if found in a student's possession:**

- illegal items or weapons (e.g. guns, knives\*, throwing stars, brass knuckles, chains)
- imitation guns or weapons
- potentially dangerous items (e.g. blades, rope)
- drugs\*\* (including tobacco)
- alcohol
- aerosol deodorants or cans (including spray paint)
- explosives (e.g. fireworks, flares, sparklers)
- flammable solids or liquids (e.g. fire starters, mothballs, lighters)
- poisons (e.g. weed killer, insecticides)
- inappropriate or offensive material (e.g. racist literature, pornography, extremist propaganda).

\* No knives of any type are allowed at school, including flick knives, ballistic knives, sheath knives, push daggers, trench knives, butterfly knives, star knives, butter knives, fruit knives or craft knives, or any item that can be used as a weapon. In circumstances where students are required to have their own sharp tools for particular subjects or vocational courses, the school will provide information about the procedures for carrying and storing these items at school.

### **Responsibilities**

#### **School Staff (at Glenmorgan State School)**

- do not require the student's consent to search school property such as lockers, desks or laptops that are supplied to the student through the school;
- may seize a student's bag where there is suspicion that the student has a dangerous item (for example, a knife) in their school bag, prior to seeking consent to search from a parent or calling the police;
- know consent from the student or parent is required to examine or otherwise deal with the temporarily removed student property. For example, staff who temporarily remove a mobile phone from a student are not authorised to unlock the phone or to read, copy or delete messages stored on the phone;
- may, due to emergency circumstances, search a student's property without the student's consent or the consent of the student's parents (e.g. to access an EpiPen for an anaphylactic emergency);
- know consent from the student or parent is required to search the person of a student (e.g. pockets or shoes). If consent is not provided and a search is considered necessary, the police and the student's parents should be called to make such a determination.

#### **Parents of students (at Glenmorgan State School)**

- ensure your children do not bring property onto schools grounds or other settings used by the school that
  - is prohibited according to this ***Student Code of Conduct***
  - is illegal or puts the safety or wellbeing of others at risk
  - does not preserve a safe, supportive or productive learning environment
  - does not maintain and foster mutual respect.
- collect temporarily removed student property as soon as possible after they have been notified by the Principal or state school staff that the property is available for collection.

#### **Students of Glenmorgan State School:**

- do not bring property onto school grounds or other settings used by the school (e.g. camp, sporting venues) that:
  - is prohibited according to the Glenmorgan State School Code of Conduct
  - is illegal
  - puts the safety or wellbeing of others at risk
  - does not preserve a caring, safe, supportive or productive learning environment
  - does not maintain and foster mutual respect;
- collect their property as soon as possible when advised by the Principal or state school staff it is available for collection.

## Use of mobile phones and other devices by students

*Digital literacy* refers to the skills needed to live, learn and work in a society where communication and access to information is dominated by digital technologies like mobile phones. However, the benefits brought about through these diverse technologies can be easily overshadowed by deliberate misuse which harms others or disrupts learning.

This policy reflects the importance the school places on students displaying courtesy, consideration and respect for others whenever they are using personal technology devices.

### **Mobile Phones**

Any mobile phones brought to school are to be clearly labelled and given to office staff at the beginning of the day and are to be collected at the end of the school day. All care but no responsibility will be taken for equipment.

### **Confiscation**

Permitted personal technology devices used contrary to this policy on school premises will be confiscated by school staff. They will be made available for collection from the school office at the end of the school day unless required to be kept for purposes of disciplinary investigation, when it will only be returned in the presence of a parent.

Devices potentially containing evidence of criminal offences may be reported to the police. In such cases police may take possession of such devices for investigation purposes and students and parents will be advised to contact Queensland Police Service (QPS) directly.

Students who have a personal technology device confiscated more than once will not be permitted to have a personal technology device at school for at least one month, or longer if deemed necessary by the Principal.

### **Personal Technology Device Etiquette**

Bringing personal technology devices to school is not encouraged by the school because of the potential for theft and general distraction and/or disruption associated with them. However, if they are brought to school, they must be turned off and out of sight during assemblies or classes unless given permission from teaching staff. Personal technology devices may be used at morning tea and lunch breaks and before and after school.

### **Recording Voice and Images**

Every member of the school community should feel confident about participating fully and frankly in all aspects of school life without concern that their personal privacy is being invaded by them being recorded without their knowledge or consent.

We uphold the value of trust and the right to privacy at Glenmorgan State School. Students using personal technology devices to record inappropriate behaviours or incidents (such as vandalism, fighting, bullying, staged fighting or pranks etc) for the purpose of dissemination

among the student body or outside the school, by any means (including distribution by phone or internet posting) build a culture of distrust and disharmony.

Students must not record images anywhere that recording would not reasonably be considered appropriate (e.g. in change rooms, toilets or any other place where a reasonable person would expect to be afforded privacy).

Recording of events in class is not permitted unless express consent is provided by the class teacher.

A student at school who uses a personal technology device to record private conversations, ordinary school activities (apart from social functions like graduation ceremonies) or violent, illegal or embarrassing matter capable of bringing the school into public disrepute is considered to be in breach of this policy.

Even where consent is obtained for such recording, the school will not tolerate images or sound captured by personal technology devices on the school premises or elsewhere being disseminated to others, if it is done for the purpose of causing embarrassment to individuals or the school, for the purpose of bullying or harassment, including racial and sexual harassment, or where without such intent a reasonable person would conclude that such outcomes may have or will occur.

Students involved in:

- ☐☐recording; and/or
- ☐☐disseminating material (through text messaging, display, internet uploading etc); and/or,
- ☐☐knowingly being a subject of a recording

Breach of this policy may be subject to discipline (including suspension and recommendation for exclusion).

Students should note that the recording or dissemination of images that are considered indecent is against the law and if detected by the school will result in a referral to QPS.

**Text Communication**

The sending of text messages that contain obscene language and/or threats of violence may amount to bullying and or harassment or even stalking, and will subject the sender to discipline and possible referral to QPS. Students receiving such text messages at school, should ensure they keep the message as evidence and bring the matter to the attention of the school administration.

**Recording Private Conversations and the Invasion of Privacy Act 1971**

It is important that all members of the school community understand that under the *Invasion of Privacy Act 1971*, 'a person is guilty of an offence against this Act if the person uses a listening device to overhear, record, monitor or listen to a private conversation'. It is also an offence under the Act for a person who has overheard, recorded, monitored or listened to a

conversation to which s/he is not a party to publish or communicate the substance or meaning of the conversation to others.

Students need to understand that some conversations are private and therefore to overhear, record, monitor or listen to such private conversations may be in breach of this Act, unless consent to the recording is appropriately obtained.

### **Special Circumstances Arrangement**

Students who require the use of a personal technology device in circumstances that would contravene this policy (for example to assist with a medical condition or other disability or for a special project) should negotiate a special circumstances arrangement with the Deputy Principal or Principal.

*\* Personal Technology Devices includes, but is not limited to, games devices (such as Portable gaming devices, Tamagotchis®, laptop computers, PDAs, Blackberrys®, cameras and/or voice recording devices (whether or not integrated with a mobile phone or MP3 player), mobile telephones, iPods® and devices of a similar nature.*

## Preventing and Responding to Bullying

### **What is Bullying?**

**Bullying** involves a series of hurtful actions by the bully to the victim over a period of time. Those actions may be verbal (such as name-calling, teasing), physical (punching), psychological (sending to Coventry, spreading rumours) and threats (extorting money) and usually the victim has difficulty in coping with such attacks (Finger, 1993).

### **Purpose**

Glenmorgan State School strives to create positive, predictable environments for all students at all times of the day. The disciplined, supportive teaching environment that we are creating is essential to:

- o achieving overall school improvement, including the effectiveness and efficiency of our student support procedures
- o raising achievement and attendance
- o promoting equality and diversity and
- o ensuring the safety and well-being of all members of the school community.

### **There is no place for bullying at Glenmorgan State School.**

Research indicates that both those being bullied and those who bully are at risk for behavioural, emotional and academic problems. These outcomes are in direct contradiction to our school community's goals and efforts for supporting all students.

Bullying behaviours that will not be tolerated at Glenmorgan State School include name-calling, taunting, mocking, making offensive comments, kicking, hitting, pushing, taking belongings, inappropriate text messaging, sending offensive or degrading images by phone or internet, producing offensive graffiti, gossiping, excluding people from groups, and spreading hurtful and untruthful rumours.

### **Bullying behaviours may be related to:**

- o race, religion or culture*
- o disability*
- o appearance or health conditions*
- o sexual orientation*
- o sexist or sexual language*
- o young carers or children in care.*

At Glenmorgan State School there is broad agreement among students, staff and parents that bullying is observable and measurable behaviour. When considering whether or not bullying has occurred, we will therefore avoid speculation on the intent of the behaviour, the power of individuals involved, or the frequency of its occurrence. Whether bullying behaviour is observed between students of equal or unequal power, whether it occurs once or several times, and whether or not the persons involved cite intimidation, revenge, or self-defence as a

motive, the behaviour will be responded to in similar fashion, that is, as categorically unacceptable in the school community.

### **Procedures for Preventing and Responding to Incidents of Bullying (including Cyber-bullying)**

#### **Rationale**

Research indicates that many problem behaviours are peer-maintained. That is, peers react to bullying in ways that may increase the likelihood of it occurring again in the future. Reactions include joining in, laughing, or simply standing and watching, rather than intervening to help the person being bullied. Whilst our school would never encourage students to place themselves at risk, our anti-bullying procedures involve teaching the entire school a set of safe and effective response to all problem behaviour, including bullying, in such a way that those who bully are not socially reinforced for demonstrating it.

The anti-bullying procedures at Glenmorgan State School are an addition to our already research-validated school-wide positive behaviour support processes. This means that all students are being explicitly taught the expected school behaviours and receiving high levels of social acknowledgement for doing so. Adding lessons on bullying and how to prevent and respond to it is a subset of procedures that our students are already accustomed to.

#### **Prevention**

Attempting to address specific problem behaviours will not be successful if the general level of disruptive behaviour in all areas of our school is not kept to a low level. Therefore, our school-wide universal behaviour support practices will be maintained at all times.

- o Our universal behaviour support processes will always remain the primary strategy for preventing problem behaviour, including preventing the subset of bullying behaviour. All students know the school rules and have been taught the expected behaviours.

- o All students have been or are being taught the *specific routines* in the non-classroom areas, from exiting the classroom, conducting themselves in accordance with the school expectations in the playground and other areas, to re-entering their classrooms.

- o All students are receiving high levels of *positive reinforcement* for demonstrating expected behaviours, including those associated with following our routines, from all staff in the non-classroom areas of the school

- o A high level of quality *active supervision* is a permanent staff routine in the non-classroom areas. This means that duty staff members are easily identifiable and are constantly moving, scanning and positively interacting as they move through the designated supervision sectors of the nonclassroom areas.

Research indicates that a common outcome of anti-bullying programming is an improvement in understanding of bullying but little change in the frequency or nature of actual bullying behaviour. One of the reasons cited for this outcome is the lack of behavioural rehearsal in the programming. The antibullying process at Glenmorgan State School takes care to combine knowledge with practice in a process of active learning, so that students understand by 'doing' as much as by 'knowing'.

**Bullying is seen as a threat to the rights of the members of Glenmorgan State School Community and is unacceptable behaviour. To ensure Bullying is monitored, a whole school approach to the issue is required.**

### **Responsibility of the School**

- Implementing the School's **Student Code of Conduct**
- Active class and playground supervision by staff
- Class discussions to deal with problem
- Individual discussion with staff or Behaviour Management Support Teacher or counselling with the Guidance Officer
- Teaching of the anti-bullying elements within social skills programs
- Teaching strategies to students to help them deal with bullying

### **Responsibility of Parents**

#### **What Can Parents Do?**

- **WATCH FOR SIGNS** that your child is being bullied, e.g., unwillingness to walk to or from school, worries about coming to school, unexplained bruising, disappearance of property, etc.
- **ENCOURAGE** the child to talk it through as much as possible so you get the basic act
- **KEEP AN OPEN MIND**, remembering you are getting one side of the story only
- **ASK** questions gently
- **HELP** the child reflect on what has been done so far
- **HELP** the child work out the best way of solving the problem

?

#### **Some Important Next Steps to Consider:**

- **NEVER** try to sort out the bullies yourself – it rarely works and can make the situation worse
- **WHEN YOU ARE CLEAR** on the facts contact your child's teacher for an interview
- **PRESENT** your information as calmly as possible
- **REMEMBER**, the school says NO to bullying and the best way to solve the problem is to work with the school as partners in finding solutions
- **ASK** your child's teacher about the school's policy on bullying and how they deal with it in their classroom
- **GIVE** the teacher some time to investigate the problem and arrange a follow up time

?

#### **The Next Steps May Then Include:**

- **ENCOURAGE** your child to develop friendships
- **SUPPORT** your child in developing sporting, cultural and other talents that will build their confidence in a safe, supportive environment
- **WORK** at improving your child's self esteem

- **SEEK** counselling to enable the child to learn to be more assertive and resilient and less likely to be bullied
- **IF SEVERE ABUSE** is evident, you may wish to consider police action

### **Responsibilities of the Teacher in regards to Bullying**

- **Make** yourself available
- **Treat** incidents confidentially where necessary
- **Treat** incidents seriously
- **Thoroughly** investigate each incident
- **Follow-up** where necessary
- **Proactively** educate the children using social skills lessons/programs
- Record incidents of bullying related behaviours on One School

### **Rights of Children with Respect to Bullying at School**

1. To know that they may talk in confidence to a liked and trusted Teacher/Administration team member about an incident/s and that they will be listened to and taken seriously.
2. To know that help is available.
3. To be confident that follow-up action will occur after reporting the bullying.
4. That assistance will be given to help them deal successfully with any further bullying.

### **Responsibilities of Students**

At Glenmorgan State School, students are taught *The High Five Strategy* from Kindy to Grade 6 to allow them to manage bullying and/or situations they feel uncomfortable as a result of another person's behaviours. This also supports them to develop resilience necessary not only in school life, but in life as an adult. Staff understand the requirement to act diligently and in a timely manner when a student makes a report to them. All staff are easily identifiable when rostered to provide supervision to assist students when reporting.

### **High Five Steps include:**

- 1. Ignore**
- 2. Walk away**
- 3. Speak friendly**
- 4. Speak firmly**
- 5. Report**

### **Responsibilities of Children Who Witness Incidents of Bullying:**

As most bullying occurs in the playground, student involvement is essential. Students are more likely to be aware of and be witnesses of bullying.

Students can:

1. Inform teachers of places in the school grounds (eg behind the toilets) where bullying occurs
2. Inform the classroom teacher or playground duty teacher where children are being bullied

Witness incidents of bullying and report:

1. Who was bullying?
2. Who was being bullied?
3. What happened?
4. Where the incident took place?
5. Offer support and friendship to the child who has been bullied.

## Appropriate Use of Social Media

At Glenmorgan State School, *Cyberbullying* is treated with the same level of seriousness as in-person bullying. The major difference with cyberbullying however, is that unlike in-person bullying, cyberbullying follows students into their community, their homes and their bedrooms, giving them no opportunity to escape the harassment or abuse during the evening, weekends or holidays.

In the first instance, students or parents who wish to make a report about cyberbullying should approach the regular class teacher.

It is important for students, parents and staff to know that state school principals have the authority to take disciplinary action to address student behaviours that occur outside of school hours or school grounds. This includes cyberbullying. Parents and students who have concerns about cyberbullying incidents occurring during school holidays should immediately seek assistance through the [Office of the e-Safety Commissioner](#) or the Queensland Police Service.

Students enrolled at Moonie State School may face in-school disciplinary action, such as detention or removing of privileges, or more serious consequences such as suspension or exclusion from school for engaging in behaviour that adversely affects, or is likely to adversely affect, other students or the good order and management of the school. This includes behaviour such as cyberbullying which occurs outside of school hours or settings, for example on the weekend or during school holidays. It also applies to inappropriate online behaviour of enrolled students that is directed towards other community members or students from other school sites.

Parents or other stakeholders who engage in inappropriate online behaviour towards students, staff or other parents may be referred to the Office of the e-Safety Commissioner and/or the Queensland Police Service. State school staff will be referred for investigation to the Integrity and Employee Relations team in the Department of Education.

# Cyberbullying response flowchart for school staff

## How to manage online incidents that impact your school

### Student protection

If at any point the principal forms a reasonable suspicion that a student has been harmed or is at risk of harm, they have a responsibility to respond in accordance with the [Student protection procedure](#).

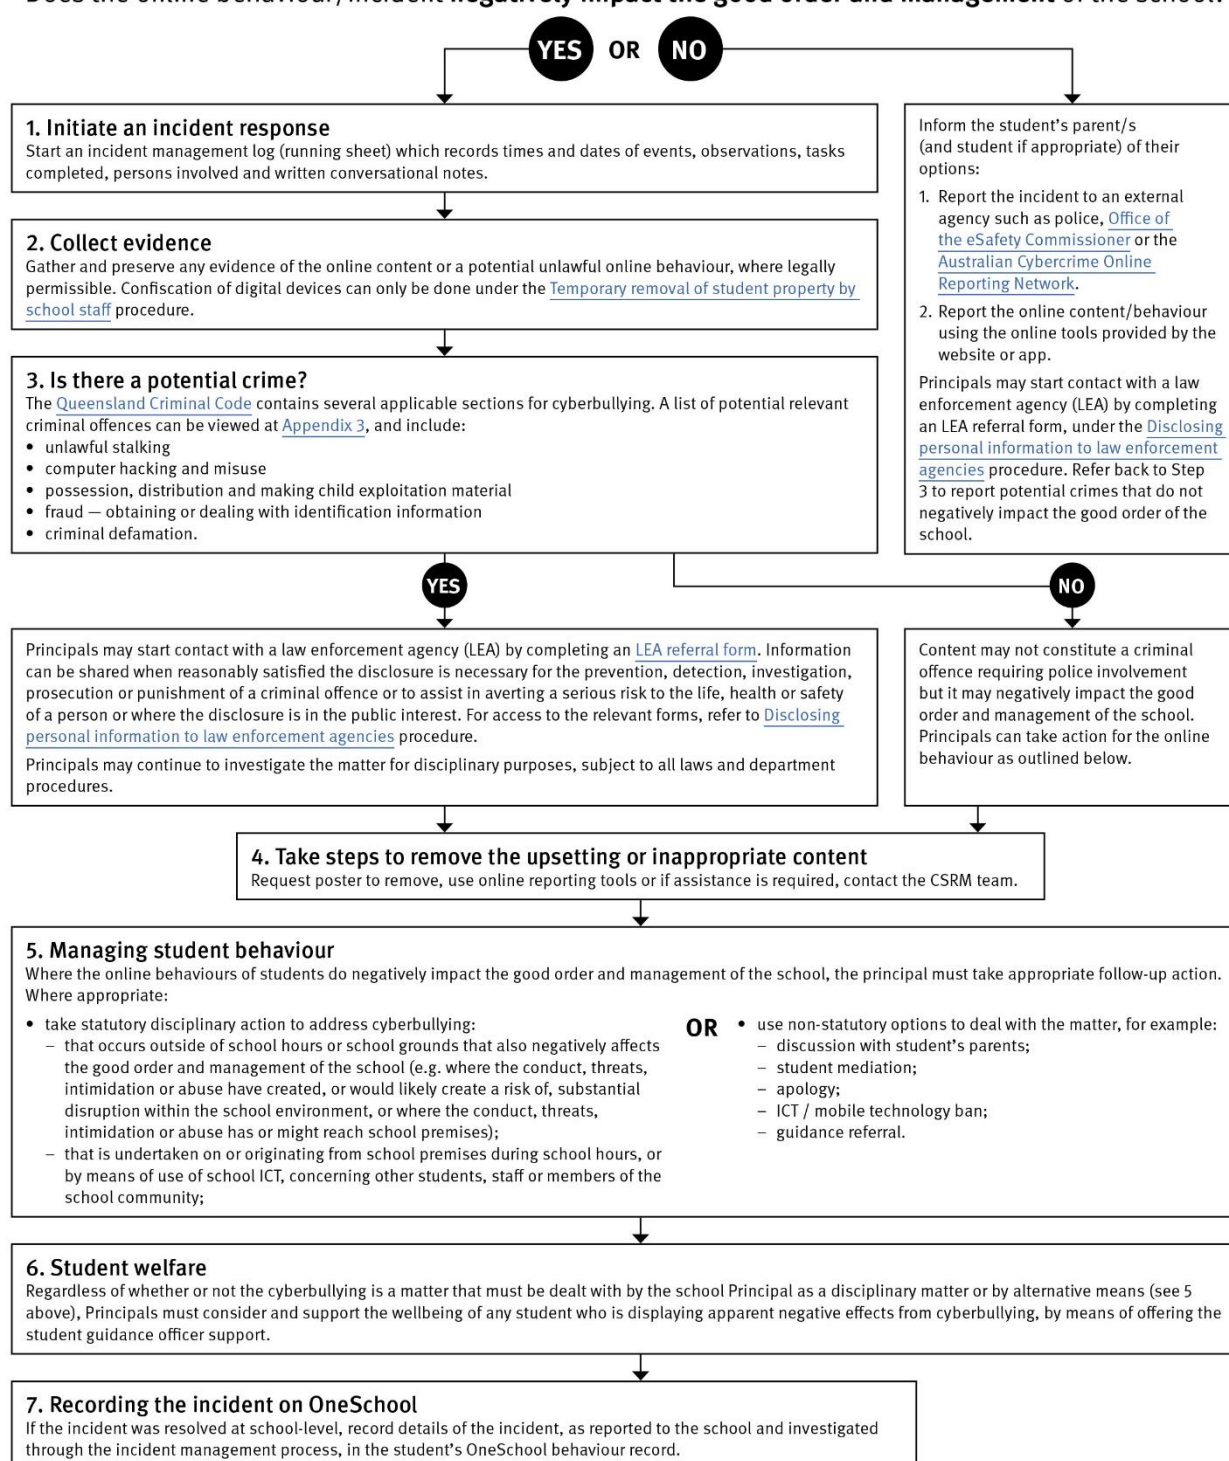

### Explicit images

If the investigation involves naked or explicit images of children, staff should not save, copy, forward or otherwise deal with the content, as per the [Temporary removal of student property by school staff procedure](#). This includes onto OneSchool records. Refer to the investigative process outlined in 'Responding to incidents involving naked or explicit images of children' from the [Online Incident management guidelines](#).

### Help

Refer to the [Online incident management guidelines](#) for more details, or if assistance is required, contact the Cybersafety and Reputation Management (CSRM) team on 3034 5035 or [Cybersafety.ReputationManagement@qed.qld.gov.au](mailto:Cybersafety.ReputationManagement@qed.qld.gov.au).

Does the online behaviour/incident **negatively impact the good order and management of the school**?

## Restrictive Practices

School staff at Glenmorgan State School need to respond to student behaviour that presents a risk of physical harm to the student themselves or others. It is anticipated that most instances of risky behaviour can be de-escalated and resolved quickly. On some rarer occasions, a student's behaviour may continue to escalate and staff need to engage immediately with positive and proactive strategies aimed at supporting the student to manage their emotional arousal and behaviour.

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices.

The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.

The department's **Restrictive practices procedure** is written with consideration for the protection of everyone's human rights, health, safety and welfare. There are six fundamental principles:

1. *Regard to the human rights of those students*
2. *Safeguards students, staff and others from harm*
3. *Ensures transparency and accountability*
4. *Places importance on communication and consultation with parents and carers*
5. *Maximises the opportunity for positive outcomes, and*
6. *Aims to reduce or eliminate the use of restrictive practices.*

Very rarely restrictive practices will be planned and staff will employ, when necessary, pre-arranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the **Restrictive practices procedure**.

**Seclusion** will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices.

All incidents of restrictive practices will be recorded and reported in line with departmental procedures.

## Critical Incidents

It is important that all school staff have a consistent understanding of how to respond in emergencies involving student behaviour that seriously endangers the student or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

*A critical incident is defined as* an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action (e.g. in the community, on the road). The aim in these situations is to bring the behaviour of the student under rapid and safe control. It is not a time to try and to punish or discipline the student; it is a crisis management period only.

Staff should follow the documented plan for any student involved in regular critical incidents, which should be saved and available for staff to review in OneSchool.

For unexpected critical incidents, staff should use basic defusing techniques:

1. Avoid escalating the problem behaviour: Avoid shouting, cornering the student, moving into the student's space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language.
2. Maintain calmness, respect and detachment: Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.
3. Approach the student in a non-threatening manner: Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.
4. Follow through: If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students' attention towards their usual work/activity. If the student continues with the problem behaviour, then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.

**Debrief:** At an appropriate time when there is low risk of re-escalation, help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.

## Related Procedures and Guidelines

These are related procedures or guidelines which school staff use to inform decisions and actions around matters associated with students wellbeing, behaviour and learning.

- Cancellation of enrolment
- Complex case management
- Customer complaints management policy and procedure
- Disclosing personal information to law enforcement agencies
- Enrolment in state primary, secondary and special schools
- Hostile people on school premises, wilful disturbance and trespass
- Inclusive education
- Police and Child Safety Officer interviews and searches with students
- Restrictive practices
- Refusal to enrol – Risk to safety or wellbeing
- Student discipline
- Student dress code
- Student protection
- Supporting students' mental health and wellbeing
- Temporary removal of student property by school staff
- Use of ICT systems
- Using Mobile devices

## Conclusion

Glenmorgan State School staff are committed to ensuring every student is supported to feel safe, welcome and valued in our school. There may, however, be occasions where parents need to raise a concern or make a complaint about an issue that they feel is adversely affecting their child's education.

All Queensland state schools are committed to ensuring that all complaints - whether they relate to a school staff member or a school's operations - are dealt with in a fair and equitable manner. As a parent or carer, you can express dissatisfaction with the service or action of the Department of Education or its staff, including decisions made or actions taken in a school and/or by the local regional office.

As a complainant, it is your responsibility to:

- give us a clear idea of the issue or concern and your desired solution
- provide all the relevant information when making the complaint
- understand that addressing a complaint can take time
- cooperate respectfully and understand that unreasonable, abusive, or disrespectful conduct will not be tolerated
- let us know if something changes, including if help is no longer needed.

**The Department of Education may not proceed with your complaint if your conduct is unreasonable.**

In most instances, staff members are told of complaints made about them and offered the right of reply. A complainant also has the right to have a support person throughout the process.

The following three-step approach assists parents and school staff in reaching an outcome that is in the best interests of the student:

1. Early resolution: Contact the school to discuss your complaint with the school staff. The best place to raise any concerns is at the point where the problem or issue arose. You can make an appointment at the school to discuss your complaint with your child's teacher or the principal. You are also welcome to lodge your complaint in writing or over the phone. You can also make a complaint through [QGov](#).

Complaints may be lodged by telephone, writing or in electronic format. Email addresses can be accessed through the [schools directory](#).

2. Internal review: [contact the local Regional Office](#)

If, after taking the early resolution step, you are dissatisfied with the outcome of your complaint or how the complaint was handled, you can ask the local [regional office](#) to conduct a review. You need to submit a [Request for internal review form](#) within 28 days of receiving the complaint outcome.

3. External review: contact a review authority

if you are dissatisfied after the internal review, you may wish to contact a review authority, such as the Queensland Ombudsman, and request an independent, external review. More information about external review options is available at [www.ombudsman.qld.gov.au](http://www.ombudsman.qld.gov.au).

Some matters need to be handled in a different way to school matters and will be referred to other areas in the department. These include:

- issues about harm, or risk of harm, to a student attending a state school, which must be managed in accordance with the [Student protection procedure](#).
- complaints about corrupt conduct, public interest disclosures; or certain decisions made under legislation, which will be dealt with as outlined in the [Excluded complaints factsheet](#).
